

A man in a brown beret and trench coat is shown in a workshop-like setting, holding a magnifying glass to his eye and a knife, appearing to inspect a wooden structure. The background is slightly blurred, showing shelves and various items.

# WE CARE ABOUT CHEMISTRY 0.5

“Almost  
perfect.”

*The EU limit is 0.5 ppm per amine when pigments can release these compounds.*

*Splitting hairs over organic chemistry makes for excellent typography.*
