

1. Human skin tissue
2. Cut, tear, or abrade
3. Heat or chemical compound
4. Burned human skin tissue
5. Controlled body healing process
6. Wounds resulting in wheals
7. Permanently raised keloids
8. Imprint of permanent markings

Scarification and branding alter human skin tissue to leave a permanent mark, wheal, or keloid.

CONTROLLED HEALING TO PRODUCE KELOIDS
